Abuja, Nigeria

### PROFILE

Full-stack web developer with seven years of experience and a cyber-security background. I build secure, production-ready apps for businesses and institutions across healthcare, fintech, logistics and education, with a focus on performance and user experience.

### EXPERIENCE

**Head of IT** — 2024 — Present
OayasTech Nigeria Limited

- Built web and mobile solutions for the company's clients, including computer-based testing platforms, business portfolios and business management software.

**Freelance Full-stack Developer** — 2019 — Present
Self-employed

- Designed, built and shipped web platforms for 12+ clients across healthcare, fintech, logistics, education and architecture.
- Built openCBT, computer-based testing software for Nigerian universities, deployable online or on a university's own servers.
- Security-first development: apps hardened against common web threats from the start, not after launch.

### SELECTED PROJECTS
